Written By: Robert n Jackie Townley

## Step 1 — Overhead Microwave Does not have to be taken down...

- Fascism or RightToRepair, which will it be?
- Looks like you would not have to take down the GE SpaceMaker JVM3670 to get at door switches, capacitors, diode, and Technical Data Sheet.
- Tech data sheet is on back side of user control panel.
- This microwave lands on the side of Right-to-Repair!

To reassemble your device, follow these instructions in reverse order.
